Per the Commonwealth of Massachusetts, all of the following must be operational to pass a Mass State Inspection:

Brakes: Front and rear
Emergency Brake ***
Horn
Stop lights and tail lights
Headlamps (high and low)
Lighting devices and reflectors
License plate light
Directional signals
Windshield wipers and cleaner
Front and rear safety belts
Body alarm
MOUNTED fire extinguisher
Chock Blocks
Flares and triangle kit
Front license plate

- n Windshield must be crack free and have 35% or less tint
- n A visual inspection of bumpers, fenders, and external sheet metal will be done
- n Tires must have 3/32 in front and 2/32 in rear
- n Front end components and steering will be inspected

*** We are not responsible for emergency brakes sticking!

Sincerely,

Joe Marino
